ta' Malta

Dear Doctor,

It is our pleasure to invite you to the *ISAM 2022 - Valletta* pre-conference workshop entitled "*The role of Family Doctors in managing Addiction Disorders*". This workshop will be held at the University of Malta Valletta Campus on the 3rd of October at 8pm. It will be led by Professor Dame Claire Gerada.

This workshop is intended to discuss challenges faced by General Practitioners when dealing with patients suffering from addiction disorders, with a special focus on substance use disorders.

Professor Dame Clare Gerada has more than 35 years of experience practicing medicine as a General Practitioner. Over these years, alongside her clinical practice, she has held several national leadership positions including Chair and President of the Royal College of General Practitioners. She has led the way in reforming how drug users are managed in general practice in the UK and has developed the RCGP Certificate in substance misuse. She was awarded an MBE for her services to medicine and substance misuse in the 2000 Birthday honors, as well as DBE for her services to General Practice in the 2020 Birthday honors.

Admission to this workshop is free of charge and we very much hope that you are interested to participate. The event will be followed by a stand-up dinner.

For registration to the workshop, please fill in and submit the online form linked below:
