Dear Doctor

RE: Elimination of Hepatitis C virus 2018 -2025

The Elimination of Hepatitis C Virus 2018 -2025 project was launched in February 2018 by the Ministry of Health. IDCU is working to recruit eligible patients for treatment.

Could you please refer to us any patients that you are aware of, who are Hepatitis C positive, and who have either not commenced treatment, or who started treatment and did not complete it.

Our email is idcu@gov.mt

It is important that you send us the name and surname of the patient, their identity number, and a current telephone number. We will then contact them and refer them to the consultants, so that they will be given an appointment for further investigation and treatment according to their needs.

Thank you for your continuous help

Regards

Dr Tanya Melillo
