

# PAEDIATRIC PODIATRY SERVICES AND ACHILLES TENDINOPATHY

Mr. Ivan Farrugia is a state registered Podiatrist with interest in Podopaediatrics. He is the President of the Association of Podiatrists of Malta and the International Federation of Podiatrists. In 2007, he collaborated on a Foot health screening project in schools. Farrugia completed his MSc in Podiatry in 2012, focusing on Podopaediatrics and obesity's impact on flat feet. He currently leads the Podopaediatric clinic at the Podiatry Centre of Excellence, collaborating with other health clinics and services.

**Paediatric Podiatry services by Mr Ivan Farrugia** (D Pod SR Pod MPodA MSc UK(Glasgow CU))  
Honorary President of the Association of Podiatrists

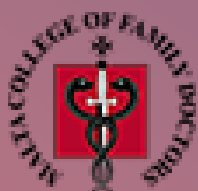

Ms. Tiziana Mifsud is a sports podiatrist and Ph.D. candidate at the University of Malta, specializing in lower limb biomechanics and injury prevention. With a bachelor's degree in podiatry and a Master of Science in Clinical Biomechanics, she is actively involved in research on Achilles tendon injuries and works on the Dense Recording of In-shoe Foot Temperature project. Mifsud holds leadership positions and lectures at the University of Malta for Podiatry undergraduate studies.

**Management and Treatment of Achilles Tendinopathy based on a research study by Ms. Tiziana Mifsud** (MSc Clinical Biomechanics (UK) BSc (Hons) Pod SR Pod MPod A)
