

Snezana Andric Filipovic, MD, PhD (ENT,) MSc (ENT, Audiology) is an ENT specialist who has been working in the field of Audiovestibular medicine for the last 21 years. She had been working for 12 years at the Department of Pediatric Audiology and Rehabilitation at the Clinical Centre of Belgrade, before she came to work and live in Malta in 2014. Her professional interest is in the field of pediatric audiology and vestibular medicine as inseparable parts of the ENT pathology. Her PhD topic is about pediatric otitis media, its seasonality, severity, and hearing loss. She is the member of the Eurotitis- 2 project team, led by prof Mark Haggard from the Cambridge University, UK. Eustachian tube dysfunction, Otoacoustic emissions and the OM8-30 hearing measures are only some of the topics covered by her publications.

Snezana currently works at the ENT Department of Mater Dei Hospital as an ENT Specialist and Consultant Audiology/Phoniatriy.

Snezana is Malta's representative in the European Society of Pediatric Othorinolaryngology, member of the ENT Association of Malta and the Medical Association of Malta
