

The National AMR Committee would like to ask for your help in obtaining a better understanding of antibiotic prescribing for respiratory infections in primary care.

To this end, we would appreciate if you could answer a very short survey which can be accessed using this link:

<https://forms.office.com/e/muygNGVKxX>

The survey will not take more than a couple of minutes to complete and your feedback will be extremely useful to the committee in its efforts to assist local doctors in the best treatment methods for these infections.

Many thanks for your assistance

Best regards

Michael Borg
